

ESC for HDPEP  
Manufacturing Facility or Laboratory Qualification

| ESC Manufacturing Facility or<br>Laboratory Qualification Status   |       |                    |
|--|-------|--------------------|
| The ESC has inspected the quality control testing program at the following polyethylene pipe manufacturing plant or central laboratory and has found it to substantially conform to the Eastern States' Consortium Requirements for Manufacturers of Polyethylene Pipe and the Manufacturer's Quality System Manual: |       |                    |
| Manufacturer:  |       |                    |
| Type of facility:  | Plant | Central Laboratory |
| Facility Address:  |       |                    |
|  |       |                    |
|  |       |                    |
|  |       |                    |
| Inspection Status (Indicate Status):   |       |                    |
| a) Manufacturing Plant or Laboratory is Qualified  |       |                    |
| b) Manufacturing Plant or Laboratory is Conditionally Qualified  |       |                    |
| If Conditionally Qualified Status is assigned, list the comment numbers from Form 8, comments, and corrective actions necessary for full Qualification:  |       |                    |
|  |       |                    |
|  |       |                    |
|  |       |                    |
|  |       |                    |
|  |       |                    |
|  |       |                    |
|  |       |                    |
|  |       |                    |
|  |       |                    |
|  |       |                    |
|  |       |                    |
|  |       |                    |
|  |       |                    |
|  |       |                    |
|  |       |                    |
|  |       |                    |
|  |       |                    |
|  | Yes   | No                 |
| Additional sheets attached (number 7A, etc.):  |       |                    |
| The results of this inspection have been discussed with the Quality Control Manager or individual responsible for QC at the facility inspected:  |       |                    |
